

## FUTURE COOPERATION WITH THE ADVISORY GROUPS

Infrastructure development and investment needs for rail freight transport

Assessment of the performance of rail freight services

YOUR OPINION MATTERS A LOT

DUE TO THE FUTURE ENHANCED COOPERATION AND ALIGNMENT BETWEEN  
THE EUROPEAN TRANSPORT CORRIDOR AND THE RAIL FREIGHT GOVERNANCE,  
YOUR VOICE CAN BE HEARD AT THE LEVEL OF THE EUROPEAN TRANSPORT  
CORRIDOR IN THE FUTURE

## Infrastructure development and investment needs for rail freight transport

- BASIS OF CONSULTATION:** An up-to-date list of planned infrastructure developments and investments along the corridor, which will be shared with the members of the RAG/TAG
  
- INPUT EXPECTED FROM THE AGs:**
  - List of capacity needs for rail freight transport with special regard to 1) 740 m trains, 2) other TEN-T parameters, 3) currently congested infrastructure, 4) bottlenecks hindering operational performance
  - Justification of the expressed needs – What can be a sufficient tool of justification according to the ministries, the IMs/AB, and the AGs? What would be acceptable for the ministries and the IMs/AB? And what would be feasible for the AGs?
  - One common opinion to be provided by RAG and TAG
  
- DATE OF CONSULTATION:** to be decided

## Assessment of the performance of rail freight services

- BASIS OF CONSULTATION: A draft annual performance report of the RFC**
  
- INPUT EXPECTED FROM THE AGs:**
  - The views and the assessment of the AGs on the draft annual performance report
  - Justification of the expressed views with data
  
- One common opinion to be provided by RAG and TAG**
  
- DATE OF CONSULTATION: to be decided**
